SUMMARY

A seasoned RPA Developer proficient in UiPath/Power Platforms as well as VB.Net and Python, leveraging a strong foundation in navigating complex processes. Expertise in process understanding and standardisation, identifying redundant processes and implementing effective improvements. Completed 8 medium to high complexity projects, driving significant cost reductions while maintaining seamless stakeholder management end to end.

EXPERIENCE

Automation Lead, Finance

Feb 2025 – Present

[Ngee Ann Polytechnic](#)

Singapore

Web development

- Redesigned and Developed Intranet for improved user experience and user interface with HTML/CSS
- Led end-to-end development of documentation hubs that improved team adoption and accelerated knowledge access across Finance stakeholders

Automation and Digitalisation

TOP SKILLS

Robotic Process Automation

UiPath

Power Automate

VB.Net

Python

HTML / CSS

VBA / Excel

Power BI

Microsoft SQL

Machine Learning

Data Analytics

GitHub

LANGUAGES

Mandarin

Native

English

Native

Cantonese

Limited Working

CERTIFICATIONS

- Process Understanding, Standardisation, Documentation and Development
- Acted as a trusted technology advisor to business users, assessing requirements and recommending fit-for-purpose solutions across a broad technology stack beyond RPA
- Partnered closely with Finance business users to define project requirements, translate needs into technical deliverables, and align expectations throughout each project
- Collectively reduced departmental man-hours by ~316 hours (~39 working days) annually

Project Management

- Managed full project lifecycle for development initiatives (both web development and automation projects) — from requirements gathering and scoping to delivery — ensuring on-time execution across multiple concurrent projects
- Partnered closely with Finance business users to define project requirements, translate needs into technical deliverables, and align expectations throughout each project

Stakeholder Management

- Served as the primary point of contact for Finance stakeholders across web development projects, facilitating regular check-ins and translating business needs into actionable development plans
- Proactively communicated project timelines, progress, and risks to Finance teams, ensuring alignment and reducing back-and-forth during delivery
- Development of Power BI Dashboard to enhance data visualization and reporting capabilities

- Diploma of Completion: RPA Developer Advanced
- Machine Learning with the Experts: School Budgets
- Unsupervised Learning in R
- Image Processing in Python
- Case Study: Exploratory Data Analysis in R

Senior Executive, Finance Process

Oct 2022 – Jan 2025

Transformation

DKSH

Kuala Lumpur, Malaysia

- Advanced UiPath (StudioPro, Orchestrator, Document Understanding)
- Advanced Power Automate (Desktop and Cloud)
- Advanced Regex for complex string manipulation and document processing
- Advanced VBA scripting for data ETL processes within Excel
- HTML/CSS for web-based automation; VB.Net for SAP automations
- GitHub repository management for version controlling
- Microsoft SQL Server for data management and archiving
- Power BI for project performance reporting and tracking

RPA Developer

Mar 2021 – Oct 2022

[AGOS Asia](#)

Malaysia

- RPA development in UiPath and Power Automate (incl. WinAutomation)
- Completed 7 automation processes, primarily within UiPath
- Integration of Excel VBA in RPA workflows
- Power BI dashboards — 7 created including P2P, I2C, R2R, and KPI tracking
- Basic to intermediate IT infrastructure (SSL setup, firewall whitelisting)

Data Analytics & Machine Learning Intern Jul – Oct 2020

[Digital Care Systems Limited](#)

Belfast, Northern Ireland, UK

- Image recognition on CT scans using Python ML (Keras, TensorFlow)
- Cloud data pipeline construction via Microsoft Azure
- Data wrangling and EDA with R and Python (Pandas, NumPy, Matplotlib)
- Model evaluation, transfer learning, and hyperparameter tuning

EDUCATION

Master's Degree — Data Analytics

[Queen's University Belfast](#)

2019 – 2020

Bachelor's Degree — Accounting

[Queen's University Belfast](#)

2017 – 2019
